P8GR
For Everyday Heroes

New P8GR TETRA Pager brings the full benefit of TETRA networks for secure 2-way personnel alerting. P8GR offers excellent coverage for public safety organizations with compact design and an internal antenna. TETRA interoperability profile call-out protocol support makes P8GR an ideal tool for alerting both professional and volunteer workforce.

Versatile configuration possibilities with Taqto™ terminal management solution allow large scale terminal deployments for organizations with varying requirements. With USB connection, the terminal configuration and firmware updating can be performed effectively, regardless of location.

Smart home station for P8GR ensures TETRA connectivity and battery charging when the user is at work or home. Furthermore the connectivity for additional alarming peripherals allow the messages reach their recipients without delay.
